

# Your complete Ethics & Compliance ecosystem

## Platform Overview

Education alone isn't enough to drive meaningful behavior change or reduce risk. **LRN Catalyst** is a modular, purpose-built platform that empowers organizations to design, deploy, and manage ethics and compliance programs with precision and impact.

**Catalyst** combines dynamic learning, workflow automation, and advanced analytics to help you scale values, strengthen ethical culture, and proactively manage risk across your enterprise.

## Flexible program management

### Comprehensive Solution

Automate, host and maintain your training and content on Catalyst, or integrate with your learning management system.

### Reporting

Access real-time dashboards and advanced analytics to track program performance, benchmark learning effectiveness, and uncover risk trends. Catalyst Reveal provides 24/7 visibility and proactive alerts.

### Certifications & Disclosures

Simplify attestations and disclosures with automated workflows, customizable templates, and centralized tracking, ensuring compliance and creating robust audit trails.

### Communication Tools

Launch multi-channel campaigns to reach employees wherever they are, with personalized messaging and notifications that drive engagement.

### On Demand & Mobile

Deliver learning anytime, anywhere. Catalyst Mobile enables employees to complete training, access policies, and interact with your code of conduct on any device.

### Design & Customization

Use Catalyst Design to tailor courses from the Inspire Library, incorporating adaptive learning, branding, and interactive elements for a fully customized experience.

Discover our award-winning platform

## Design

Customize courses from the Inspire Library to align with your brand and organizational needs. Incorporate adaptive learning, interactive elements, and conversational AI for a fully personalized experience.

## Reach

Deliver adaptable learning paths and manage campaigns with DOJ-ready tracking and reporting. Seamless learner communications and robust automation ensure engagement and completion.

## Reveal

Gain real-time visibility into program performance with advanced analytics and dashboards. Monitor risk trends, measure effectiveness, and take proactive action with predictive insights.

## Mobile

Enable employees to access compliance programs anytime, anywhere. Complete training, review policies, and interact with your code of conduct on any device.

## Phishing

Protect your organization from cyber threats with next-gen phishing simulations and adaptive microlearning. Automate campaigns, track results, and integrate with your broader cybersecurity strategy.

## Supplier

Streamline compliance for vendors and supply chains with a dedicated instance for supplier codes of conduct, onboarding, and training. Includes Smart Code for Suppliers and Inspire Library access.

## Smart Code

Bring your code of conduct to life with an interactive, digital-native experience. Embed analytics, link policies, and provide employees with the tools they need to make informed decisions.

## Disclosures

Automate the collection and review of disclosures with customizable workflows and centralized tracking. Ensure compliance and maintain robust audit trails.

## Client Satisfaction

Our rigorous quality assurance goes beyond delivery into post-implementation. We are results oriented and regularly gauge the effectiveness of our offerings so we can adjust and improve. Our latest client survey shows:

Rate their experience good to excellent

Say their learning experience helps them better understand company values

Say it provides the necessary guidance to deliver on mission and purpose
